Regarding FCC Chairman’s request for input “Delete, Delete, Delete”

From: John Gentry, ARS KB4JN, Pace, FL

Subject Regulation: Title 47, Chapter I, Subchapter D -Part 97

§ 97.205 Repeater station.

(h), (h)(1), (h) (2) Recommend these paragraphs be deleted in its entirety.

Rationale: The Arecibo Observatory is permanently closed due to collapse of the antenna structure. Other National Science Foundation activities that are ongoing at Arecibo would not be affected by repeater transmissions within 10 miles of the observatory.

Savings: No significant dollar savings would be expected from this deletion. It would improve the document by eliminating irrelevant restrictions.
